

Murphy, Marla D., Carol S. Ireton-Jones, Bettina C. Hilman, Mary Anne Gorman, George U. Liepa.  1995. Resting energy expenditures measured by indirect calorimetry are higher in preadolescent children with cystic fibrosis than expenditures calculated from prediction equations.  *Journal of the American Dietetic Association* 95(1): 30.

For Your Information. 1997. Volunteer program for dietetics students enhances their clinical skills and gives them an edge in career planning. *Journal of the American Dietetic Association* 97(10): 1081.

*Of Interest To You.* 1997. Marriott health Care Services see RDs as “change leaders”. *Journal of the American Dietetic Association* 97(11): 1250.

For Your Information. 1998. Hunger and satiety: Deceptively simple words for the complex mechanisms that tell us when to eat and when to stop. *Journal of the American Dietetic Association* 98(10): 1111

Cluskey, Mary, Nancy Dunton. 1999. Serving meals of reduced portion size did not improve appetite among elderly in a personal-care section of a long-term-care community.

This journal is edited and owned by the American Dietetic Association [http://www.eatright.org/]. They do have the indexes [http://www.adajournal.org/issues] to the Journal of the American Dietetic Association [http://www.adajournal.org/] from 2004 to current issues. This index of the “old” journals has not been done through the magic of technology but a search and typing into digital format. The library used had some missing issues and the typist may have made mistakes. All corrections can be sent via e-mail to food at oregonstate.edu. If you have questions, they should also be sent there. Certainly, if any group or organization is willing to review/check volumes and make corrections, the help will be appreciated. Contact this webber if you would like to select a volume and we will minimize overlap.
