Math 255 Lecture 10 Fall 2004

M, W, F 14:00 – 14:50

Weniger 149

Instructor: C. Escher
Office: Kidder Hall 314
Telephone: 737-5155
E-mail: escher@math.orst.edu
Off. Hours: W, F 12:00, M 13:00 and by appointment. The Friday office hour will be held in the MLC.

Assistant: Nicole Webb
Office: Kidder Hall 108E
E-mail: nwebb@math.orst.edu

T. Dray, 2003 Revision, OSU Mathematics Department Study Guide for Mth 255

Grading: Recitation/Homework: 100 points;
Midterm: 100 points;
Final: 100 points;
Final: 100 points.
The lowest of the last 3 scores will be dropped. The course grade is then based on a maximum score of 300 points.

Exams: Midterm: Wednesday, October 27.
The midterm will be given during the regular class hour.
Final: Monday, December 6, 9:30.
The midterm will cover Lessons 1 through 7;
the final exam will be accumulative covering Lessons 1 through 14.

Homework/Labs: Homework problems are collected weekly, a portion of which will be graded. During recitation there will be group activities which will need to be written up individually and returned by the next day.
Calculators: Calculators will not be allowed on the midterm or the final. Their use is permitted for the labs and homework even though the problems can be solved without one.

Math Learning Center: Kidder Hall 108, 737-4946, M-Th 9:00 - 20:00, F 9:00 - 17:00.

Description: This is the fifth course in calculus. The emphasis is on the calculus of vector fields, that is functions that assign vectors to points in space, with the goal being a deeper understanding of the meaning and use of mathematics. The outline of the course is given in the Study Guide. We will adhere to this as closely as possible. Homework problems are given in the Study Guide.

Good Luck!
